

ProfilerStorm™

HURRICANE RATED SLIDING STORM DOOR SYSTEMS

Horton Automatics has a complete line of hurricane rated sliding doors to provide security, safety and protection.

SERIES 2000

Innovative Features and Economical Performance

Horton Automatics has closely followed the growing need along the East and Gulf Coast States for hurricane rated sliding doors. The **ProfilerStorm** Door series offers the most extensive line of hurricane rated doors to meet all your design needs.

The **ProfilerStorm** product line offers narrow and medium stile doors along with fixed panel and all breakaway door packages. Additionally, the **ProfilerStorm** series carries ratings for small missile, large missile and non-impact glass required by the Dade County Building Code Compliance Office. Horton Automatics is the first to bring to the market hurricane rated sliding doors with single action panic devices to allow for fast and efficient egress should an emergency arise.

Horton Automatics offers complete door systems in custom sizes. The entire door line is supported by the largest distributor network in the industry.

Standard Features:

- ▶ Heavy duty header design – 4" x 6"
- ▶ Replaceable header track and cap
- ▶ Replaceable bottom guide track and cap
- ▶ Microprocessor control
- ▶ Dade County code approval
